WE ARE SUN WOOD

„The vision of a daring idea fuels my belief of the feasible“
Arno Stainer,
founder and CEO of SUN WOOD

1. We collect the most beautiful woods from all around the world ...

2. digitize their wooden surfaces using our in-house 3D scanner ...

3. And reproduce their look and feel on local wood.

WOOD. NATURALLY DIFFERENT.

Gigantic sequoias from the US, painted wooden boats from Asia or wooden beams steeped in history from the Alps: SUN WOOD CEO Arno Stainer has always had a passion for special types of woods. His passion turned into a vision: with SUN WOOD, his objective is to take all the unique woods he's discovered on his worldly travels far and wide and make them accessible for creative interior solutions.

Today, we offer hundreds of different types of reclaimed and precious woods from all around the world that we reproduce in any number of product variants while protecting natural resources.

MADE IN AUSTRIA.

All our products are produced and handcrafted on site in our company in Austria. Using a 3D large format scanner, we digitize original woods from all around the world up to a size of 6 x 2 meters. This leaves us with high-resolution wood decor data that we use to refine various substrates.

The basis for our SUN WOOD products is wood from domestic forestry, which we give the look and feel of original reclaimed or precious wood by using our special surface technology: For this purpose, the surface of the supporting materials is chopped and/or brushed and the desired decor is applied directly to the wood using innovative printing technology.

PEST- AND POLLUTANT-FREE

Unlike their originals, SUN WOOD products are pesticide-, wood worm- and pollutant-free.

LOCAL WOOD FROM SUSTAINABLE FORESTRY

For us, protecting precious woods and using wood consciously is self-evident. That's why we only use wood from our surrounding area as the basis for our products and demonstrably support ecological, economic and socially sustainable forestry through the PEFC certificate.

100% HANDCRAFTED

Every single one of our products is unique, because there is a lot of handwork in it.

Before we apply the desired SUN WOOD decor, the surface is chopped and/or brushed by hand.

LARGE FORMATS - PERMANENT AVAILABILITY

We refine supporting materials of all types. Wooden beams up to 15 m, 6 x 2 m panels or individual special formats aren't a problem for us! In addition we guarantee the availability of our decors on long-term.

BENEFITS

Versatile supporting materials enable universal use of our decors

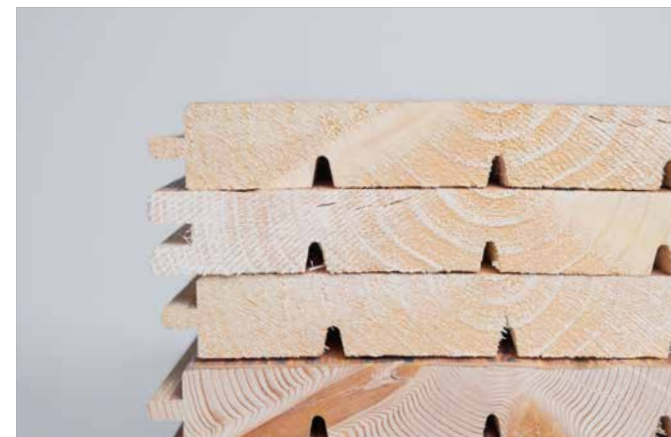

By means of the innovative SUN WOOD printing and surface technology, versatile wooden supporting materials and products are refined with extraordinary decors. As a result, more than 100 reclaimed wood, precious wood and concrete decors can be used for wall and ceiling paneling, furniture fronts, parquet flooring, doors, tables and more.

DESIGN PANELS

3-Layer Panels in unique look & feel - made of spruce wood

SUN WOOD 3-layer panels made of domestic spruce are ideal for creative wall and ceiling cladding, for shop and trade fair construction, for furniture production or even as temporary floor panels. Versatile dimensions allow the realization of individual projects: Whether in large panel formats up to 6x2 meters or as a compact solution in a consistent design to save transport costs.

Optional certifications make the panels ready for use for building a sauna, for shipbuilding or in the public sector, which requires a fire protection class.

---------------	--

Veneer Rolls:	
Veneer edges:	24 x 1 mm
ABS Veneer:	23 x 1 mm

TABLES

TABLES IN SUSTAINABLE WOOD DESIGNS

Unique pieces in individual formats, shapes and designs

With SUN WOOD tables you bring a piece of nature into your home! At the same time, the preservation of rare woods and the valuable resources of our earth are protected. Neither the rainforest nor an old barn has to make room for our tables - instead, we reproduce the reclaimed wood or precious wood true to the original on domestic, PEFC-certified wood. Each table is unique and made to measure according to your wishes. Formats up to 5x2 meters are easily feasible for us.

You can find all table models in our online shop: www.sunwood-shop.com

FREE TABLE SAMPLE

With a free of costs table sample, you can convince yourself of the look and feel of our tables from the comfort of your own home.

DOORS

WOODEN DESIGN DOORS

One door - countless possibilities

Whether in a rustic reclaimed wood design with original board character, in the look of charred wood or in the form of an expressive precious wood panel. Whether as a particularly high-quality solid wood door or as an inexpensive version with real wood veneer: With our unique printing and surface technology, we transform the doors of reputable manufacturers into unique items!

Sliding doors

As a space-saving room solution or as a stylish furnishing element: our sliding doors are available in various styles. The sliding door „Rustic“ in reclaimed wood design is reminiscent of a barn door. With the sliding door „Precious Wood“, a noble tree trunk serves as a passageway to the next room.

Your door - our design

In addition to the complete door package, we also offer the possibility to refine provided doors! Tell us your ideas - we will find a solution. Because special requests are the order of the day for us.

DOOR DESIGN ELEMENT

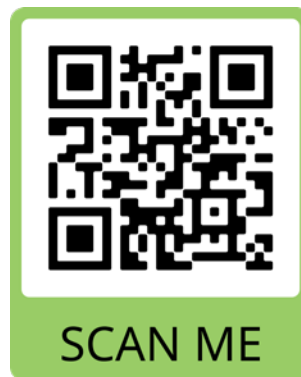

” The most beautiful way to connect two rooms: With our large design panels in natural tree form, doors merge with stylish room elements.

SELF-ADHESIVE WOOD VENEER

WOOD VENEERS WITH A SELF-ADHESIVE BACKSIDE For a quick furniture upgrade

Upgrading instead of replacing is the motto: Whether it's doors, wardrobes, glass walls or a sales counter that no longer suits your taste: with self-adhesive wood veneers in over 100 reclaimed and precious wood decors, furnishing objects can be upgraded quickly and easily.

Details can be found online and in our veneer brochure.

INFORMATION

Decor // STALLGRAU 60

The SUN WOOD decor // STALLGRAU 60 originates from an old barn from the South Tyrolean Dolomites. During a mountain tour, SUN WOOD founder Arno Stainer encounters the dismantling of the barn. He takes the most beautiful boards from the barn back to the company's headquarters in Salzburg, where they are reproduced on various supporting materials.

Decor // CONCRETE 305

Wood becomes concrete - a clever combination!
For our concrete decors, various concrete surfaces were digitized and then reproduced on wood. The supporting material wood enables flexible integration into modern room concepts thanks to a considerable reduction in weight and easier processing options.

Decor // SAALACH 26

The SUN WOOD // SAALACH 26 decor originated in the waters of pinzgau which is also the eponym for this unique decor. The boards were saved from the river Saalach just a stone's throw from the SUN WOOD headquarters. Now they serve as a template for the special alluvial wood decor.

Decor // BRISTOL 53

The SUN WOOD // BRISTOL 53 decor comes from an old English country house. The desolate house was demolished by a nonprofit organization and SUN WOOD welcomed the boards into its collection with open arms. The narrow boards in bright red are reproduced in the form of versatile wooden supporting materials.

SHOWROOM

VISIT US IN OUR SHOWROOM IN ST. MARTIN/LOFER

And experience our variety of products and unique original woods from all over the world

Special types of wood like mango or unique wood panels from Africa: our showroom is the best place to marvel at the beauty of our large collection of original woods and give you a glimpse of all our products in use.

Visit us and experience the unique look and feel of SUN WOOD!

Our business hours:

Monday – Thursday: 8.00 – 12.00 & 12.30 – 16.30

Friday: 8.00 – 12.00

With appointment also on Friday afternoons.

” On my travels around the globe I discover exclusive and rare woods. Through SUN WOOD I want to make them accessible for creative interior design projects.
Arno Stainer, CEO & adventurer
